INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

(Chapter II of the Patent Cooperation Treaty)

(PCT Article 36 and Rule 70)

Applicant's or agent's file reference M03B300/MW	FOR FURTHER ACTION	See Form PCT/IPEA/416		
International application No. PCT/GB2004/004755	International filing date (day/month/year) 11.11.2004	Priority date (day/month/year) 13.11.2003		
International Patent Classification (IPC) or national classification and IPC A23D9/05, A23D7/05, B01J2/04, F25D25/00, B01D9/00, F25D31/00				
Applicant THE BOC GROUP PLC et al				
 This report is the international preliminary examination report, established by this International Preliminary Examining Authority under Article 35 and transmitted to the applicant according to Article 36. 				
2. This REPORT consists of a total of 5 sheets, including this cover sheet.				
3. This report is also accompanied by	3. This report is also accompanied by ANNEXES, comprising:			
a. sent to the applicant and to	a. sent to the applicant and to the International Bureau) a total of sheets, as follows:			
sheets of the description, claims and/or drawings which have been amended and are the basis of this report and/or sheets containing rectifications authorized by this Authority (see Rule 70.16 and Section 607 of the Administrative Instructions).				
		considers contain an amendment that goes s indicated in item 4 of Box No. I and the		
sequence listing and/or table		umber of electronic carrier(s)), containing a form only, as indicated in the Supplemental ative Instructions).		
4. This report contains indications rela	ting to the following items:			
Box No. I Basis of the opinio	יי חכ.			
Box No. II Priority	-t of animina with remard to nevel the inve	ntive eten and industrial analisability

INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY (SEPARATE SHEET)

International application No.

PCT/GB2004/004755

Re Item V

Reasoned statement with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Reference is made to the following documents:

D1: WO 02/089998 A (NOVEL TECHNICAL SOLUTIONS LIMITED; ZHOU, CHUANJIE) 14 November 2002 (2002-11-14)

2. The present application does not meet the criteria of Article 33(1) PCT, because the subject-matter of claim 1 is not new in the sense of Article 33(2) PCT.

The document D1 discloses a method of cooling liquids which comprises forming a sheet of the feed liquid and allowing this sheet to be impinged on both sides by cryogen (see D1: page 4, paragraph 1 - page 5, paragraph 1).

3. The present application does not meet the criteria of Article 33(1) PCT, because the subject-matter of claim 14 does not involve an inventive step in the sense of Article 33(3) PCT.

The document D1 discloses an apparatus for carrying out the above method. The apparatus consists of a nozzle for forming at least one sheet of flowing particles of the feed liquid, one cryogen discharge member for directing the gas stream at one side of the feed sheet and one cryogen discharge member for directing the gas stream at the other side of the feed sheet (see D1: page 4, paragraph 1 - page 5, paragraph 1; figures). The subject-matter of claim 14 differs from the apparatus taught by claim 14 merely in the detail that there is more than one cryogen discharge member on each side of the sheet. However, it seems that this feature is a trivial one with an effect that might be readily anticipated by those skilled in the art. Furthermore, there is no evidence for an unexpected effect due to this feature disclosed in the application. Therefore it appears that the subject-matter of claim 14 lacks inventive step.

4. Dependent claims 2-13 and 15-34 do not contain any features which, in combination with the features of any claim to which they refer, meet the requirements of the PCT in respect of inventive step since these claims relate to conditions and features which are disclosed as possibilities in the document D1 (see D1: the whole document). Therefore, it is reasonable to assume that the skilled person might select and employ any one of

INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY (SEPARATE SHEET)

International application No.

PCT/GB2004/004755

these features in the routine practice of the teaching of the document D1, without demonstrating inventive skill.
